This is excellent. I just had one or two questions/suggestions...see attached.

Subject: RE: DRAFT planning toolbox for Jan. 26 meetings
Importance: High

Draft updated with the complete list of potential technical/data elements for the "catalog" as part of the toolbox (thank you Emily!). I've added Nicki to this email since as noted I promised her this document by Monday morning. If others have input or revisions, please let me know ASAP, with the knowledge that this is not intended to be a final product at this time but something for co-chairs and steering committee to react to, so mostly looking to make sure this reflects our discussions and there are no red flags.

Subject: DRAFT planning toolbox for Jan. 26 meetings

Good morning all –

I attempted to take the results of the conversations we have had this week (Wednesday with Kristen and Jennifer, yesterday with the work group) and translate them into an outline/draft of the planning toolbox that we can share with the co-chairs and the steering committee next Friday for feedback. I promised Nicki something final no later than Monday morning so she can distribute to both groups, so wanted to get this around to see if anyone had questions or comments based on their notes.

One note – I need to incorporate the rest of Emily's list of data under the "catalog" but don't have my full binder with me at the moment. I should be able to update this later today.

Also, Emily, let me know if you have heartburn about my including your hypothetical bar in this. I know Nicki is going to use it for her purposes already so I think these groups will be seeing it in other contexts as well.

Thanks!

Lisa Schaefer
